Fold, Store & Go

Safely Fold & Store with the Alarm System *— Equipped with innovative technology, easily fold and unfold with speed and safety with the Tressel FOLD. We have installed a motion sensing alarm system that will prevent any theft. Each key is* ***unique*** *to each Tressel FOLD. Includes battery lock & key.*

Easily Rolled Like a Dolly After Folding

Once folded, the Tressel FOLD SOLO can be rolled like a dolly for effortless transport and storage.

Lifting Points When Folded for an Easy Two-Person Lift

Strategically placed lifting points make it simple for two people to carry the trike when folded.

Motion Sensing Alarm System

A built-in motion sensing alarm system prevents theft. Each key is unique to each Tressel FOLD.

Comfort & Ride Features

Reclining Backseat

The rear seat reclines via lever from 90 to 180 degrees, allowing extra space and storage while traveling. The backseat folds down via hand lever for additional storage and space for the rider/driver.

Premium Adjustable Pegs

Each purchase includes a set of premium aluminum & rubber pegs. They are fully adjustable and provide the foot position for when riding solo or with a passenger. They also fold up for storage.

Adjustable Armrests

Adjustable armrests for added comfort on every ride.

Lighting, Signals & Visibility

Turn Signals, Brake Lights, Headlight & Running Lights — The headlight and rear running lights can be turned off to conserve battery via the ignition switch.

Turn Signals

Equipped with left and right turn signals to inform nearby pedestrians and drivers.

Brake Lights

Rear brake lights ensure the safety of the driver and those around them.

LED Headlight

Bright LED headlight for visibility in low-light conditions.

Running Lights

Running lights can be turned off to conserve battery via the ignition switch.

Premium Accessories Included

Premium Adjustable Mirrors

*Each purchase includes a set of premium mirrors constructed with **aluminum & carbon fiber**. They are fully adjustable and provide the perfect vision for your blind spots. They also fold inward for storage.*

Expandable Rear Bag

Expandable zipper bag on the rear. Folds up to allow taillights to work while the bag is in use.

Folding Front Basket

Folding Basket collapses for storage when not in use, and includes an optional support bracket if load exceeds 15lbs. Removable front bracket for basket support (25lbs).

What's Included with Every Purchase

What Our Customers Are Saying

★★★★★

"There's absolutely nothing else that I've been able to find and want in over two years of searching and comparing that's even come close to my desires of even being comparable to a TresselFOLD E-Trike's ease of mobility, dual person carrying capacity & comfort, compact foldability uniqueness, eye catching attractiveness & style, cost effectiveness for two persons to ride together instead of separately, and just my and my wife's overall positive mental attitude and low physical impact experiences of owning and riding one. Our TresselFOLD E-Trike is easily one of the most beneficial, favorite, fun, and instantly practical purchases we've ever made. There are definitely no purchase or ownership regrets... absolutely none at all!"

Maurice *— North Carolina*

★★★★★

"Had these types of scooters for many years. Great service and stand up to pulling my 300lbs around the southeast. Brandon developed the Tressel to be a true reliable scooter with the power to pull the hills at Dollywood like there is nothing to them. We love our pair of Tressel FOLDs."

Marvin "Santa" *— North Carolina*

★★★★★

"We love our Tressel. Fits in stall in horse trailer. And doggies love it."

Chris *— Florida*

★★★★★

"I have one and it is so fun!"

Lesley *— Florida*
